Lakes of Fire is the Great Lakes Region's official Burning Man event and it is conducted in accordance with the 10 principles. Lucky Lake includes a freshwater, no wake, no gas motor lake with more than a mile of beautiful shoreline with catch & release fishing. Please be aware that there will be no lifeguards on duty and swimming is at your own risk.

Before you've even settled in, you will run into pixies flitting past and you'll wonder if you actually saw them touch the ground. Satyrs are playing irresistibly enticing music just around the corner, and a dark shape seems to shift about in the center of the lake. Giants and dragons are playing chess, and minotaurs tussle in the dirt with gryphons. Beasts of myth, writ with fire, wood, paint and fur, are everywhere.

What creature of legend speaks to you?
What does it want to say through your hands?

Welcome to the home of Mythical Creatures
- it's time to free your stripes and scales.

the epic tale of GARDON!

THE GREAT & TERRIBLE

Eons ago, when the stars were young, GARDON! The Great & Terrible was born in the gaseous depths of an ancient gas giant known as Uranus. Back then, little baby GARDON! was not as great, and not as terrible... but he knew how to throw some pretty sweet parties.

After thousands of years, GARDON! had amassed a large following throughout the galaxy. Eventually, his followers formed the Order of Dragon Acolytes and helped GARDON! throw even bigger and better parties. For millions of years, GARDON! and his followers traveled the stars, throwing really sick parties.

Then one day GARDON! grew bored of partying and became very hungry. He gobbled up all of his followers, save for a small handful whom he commanded to find new, naive planets & convince them to throw more parties so he could eat them too!

The rest of the universe eventually grew tired of GARDON! eating all the planets and so they hatched a plan. They formed the People's Order of Peace (P.O.P.) and built a giant magical Pegasus to fight GARDON! and destroy him forever. However, GARDON! escaped and hid in the darkness between the stars...

The surviving Order of Dragon Acolytes were forced into hiding and so became the SECRET Order of Dragon Acolytes (S.O.D.A.). P.O.P. hatched one last plan to bring GARDON! & S.O.D.A. out of hiding and destroy them both once and for all. They used a crazy spaceship known as the U.S.S. Pandemonium to lure GARDON! out of hiding...descend to Earth...and party one last time...

Now, GARDON! approaches Earth and his Acolytes are working hard to prepare a sick party before the long-pig feast. Little do they know, the battle to save the universe will soon be at hand!

The Sound Rules

Artistic expression through the medium of sound is highly encouraged and appreciated by the Lakes of Fire community and organization, provided it does not threaten the event as a whole. Unfortunately, the cumulative and far-reaching effects of sound can potentially endanger Lakes of Fire's continued presence at any particular location.

All participants bringing amplified sound are required to sign a Sound Agreement and display a Sound Permit prominently by their sound source.

The Sound Team will be monitoring and working with sound camps throughout the event and infractions will be marked against the permit and logged for future use.

10 principles

RADICAL INCLUSION - Anyone may be a part of Lakes of Fire. We welcome and respect the stranger. No prerequisites exist for participation in our community.

GIFTING - Burning Man is devoted to acts of gift giving. The value of a gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

DECOMMODIFICATION - In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

RADICAL SELF-RELIANCE - Burning Man encourages the individual to discover, exercise and rely on his or her inner resources.

RADICAL SELF-EXPRESSION - Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine it's content. It is offered as a gift to others. The giver should respect the rights and liberties of the recipient.

COLLABORATION - Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art & methods of communication that support such interaction.

CIVIC RESPONSIBILITY - We value civil society. Community members who organize events should assume responsibility for conducting events in accordance with local, state and federal laws.

LEAVE NO TRACE - Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

PARTICIPATION - Our community is committed to a radically participatory ethic. We believe that trans-formative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing.

Everyone is invited to work. Everyone is invited to play.

IMMEDIACY - Immediate experience is, in many ways, the most important touchstone of value in our culture. We see to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation is society, and contact with a natural work exceeding human powers. No idea can substitute for this experience.
