Lakes of Fire is sponsored by Great Lakes Experimental Arts,
a Michigan-based 501(c)4 social welfare organization.

WELCOME

Lakes of Fire is a collaborative celebration of art & steeping friendship, fire and wonder. This event is for you and by creativity, art and your relentless enthusiasm. Lakes of Fire is the Great Lakes Region official Burning Man Regional event and it is conducted in accordance with the 10 principles. Please keep the consent of others in mind at all times, and remember that Lakes of Fire is a place that encourages you to say "no" as well as "yes". This experience is your own.

Lucky Lake includes a freshwater, no wake, no gas motor lake with over a mile of shoreline with catch and release fishing. Please be aware that there will be no lifeguards on duty and swimming is at your own risk.

Please note that the listings of events and camps in this WWW guide are not exhaustive as some camps and event organizers opted not to fill out the WWW form over the web. All event locations, times, and actual existence are subject to change due to last minute updates and the fickle plans of burners.

BEDTIME STORIES

"A need to tell and hear stories is essential to the species *Homo sapiens* – second in necessity apparently after nourishment and before love and shelter." - Reynolds Price

Before humans learned to write, they told stories. Rock art, cave symbols, dance, tattoos, carving trees - we've used every medium imaginable to tell the stories of our lives, and of our ancestors' lives, and of the lives of the fantastic people, beasts, and gods inside our heads.

Storytellers were regarded as teachers, secret keepers, spiritual guides, and healers.

We tell fairytales, myths, and fables, yes, but we also use stories to communicate our deepest selves and explore difficult and personal ideas.

When we burn our art, we are telling a story of glorious communal effort to share a dream in a way that can never be replicated.

What is your story, and how will you share it with us?

10 PRINCIPLES

RADICAL INCLUSION - Anyone may be a part of Lakes of Fire. We welcome & respect the stranger. No prerequisites exist for participation in our community.

GIFTING - Burning Man is devoted to acts of gift giving. The value of a gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

DECOMMODIFICATION - In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

RADICAL SELF-RELIANCE - Burning Man encourages the individual to discover, exercise and rely on their inner resources.

RADICAL SELF-EXPRESSION - Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. The giver should respect the rights and liberties of the recipient.

COLLABORATION - Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art and methods of communication that support such interaction.

CIVIC RESPONSIBILITY - We value civil society. Community members who organize events should assume responsibility for conducting events in accordance with local, state and federal laws.

LEAVE NO TRACE - Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves & endeavor, whenever possible, to leave such places in a better state than when we found them.

PARTICIPATION - Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play.

IMMEDIACY - Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

The Petite Perseverance Advisory (PPA)

The Petite Perseverance Advisory is your Survival Guide cheat sheet. We made sure to keep all the gems that help you enjoy Lakes Of Fire while surviving successfully. For more details, visit lakesoffire.org/the-event/survival-guide/

Real Talk

Lakes of Fire's site, Lucky Lake Campground, is privately owned and operated by our friends and trusted partners. Please comply with any reasonable request that law enforcement, your organizers, your hosts, or their employees make of you. Failure to do so is grounds for removal from Lakes of Fire, and that's way less of a good time.

Banned in the LoF

Fireworks, Chinese lanterns, weapons, Drones, illegal substances, handheld lasers, glitter and trampolines are not allowed. If you brought any of these items, please return them to your vehicle and leave them there. There are darn good reasons each of these items are listed, thanks.

Nexus

The large tent, near the Greeters is The Nexus, our Center Camp! Stop by all day for fun and interactive activities. There are volunteers to help answer any questions you may have, from getting directions to finding a volunteer shift or two.

At the burn...

- ◊ Bags of ice and bundles of firewood are available for sale, cash only, at the trailer across from the Nexus in the Center Camp area.
- ◊ Potable water is available from a number of locations.
- ◊ Remember that while some places are quieter than others at Lakes of Fire, no place at Lucky Lake is quiet until 4am. Loud music can start back up at 10am.
- ◊ There are no lifeguards – swim at your own risk.
- ◊ Porta-Potties are set up around the lake. Only the 3 Ps are allowed in the Porta-Potties: Pee, Poop, and Paper. No wet wipes, tampons, plastic or any other objects. "Please do not poop in the forest or lake." – Skennedy
- ◊ Respect the art and artists at Lakes of Fire by only modifying artwork with the permission of the artist. If you see someone vandalizing artwork, ask them to stop or inform a Ranger if necessary.
- ◊ Please be cautious leaving valuable possessions unattended, in your tent, or visible in your car. While theft is rare, sadly, it does happen.

Consent

- ◊ Radical self expression can take many forms — what's important to recognise is that none of that is an invitation to anyone to invade someone's personal space, or make physical advances.
- ◊ Nudity, skimpy clothing, or even raunchy behaviour is not an invitation for any form of intimate physical

contact. The only invitation is a clearly spoken invitation. The bottom line? Just be cool by respecting other people's bodies and personal space.

Photography

Lakes of Fire is a private event and we expect participants to approach photography respectfully. Ask first. If you can identify anyone in the picture, you should have asked and received their consent first.

Volunteering

Lakes of Fire is entirely run by volunteers and we are always looking for enthusiastic burners that want to help out. If you're looking to volunteer come visit the Nexus at center camp as we are always looking for more hands!

Camping

- ◊ Please be responsible about your tent stakes and ropes to prevent injuries. Illuminating guide wires and ground stakes are highly recommended.
- ◊ All structures, including tie downs, must be inside the campsite markers and not obscuring pathways.
- ◊ All generators must have a sound baffle.

Vehicle Camping

Car camping is permissible if you have a medical condition or will be using your car as part of a camp's infrastructure. You must request a Car Camping Permit from the Parking Department. You may not drive your 'car camping vehicle' once the event begins. RVs must park either in open camping or in a theme camp. There are no electric hookups available for RVs in open camping.

Campfires

- ◊ A limited number of campfire rings have been placed by DPW. Campfire rings and burn barrels may not be installed or moved without approval from DPW (Department of Public Works).
- ◊ If your site needs a fire ring or you wish to use a burn barrel, contact DPW by visiting their camp or stopping a DPW vehicle.
- ◊ All structures must be at least 12 feet away from any fire rings and burn barrels, and burn barrels must be raised on concrete blocks. Keep this in mind when setting up your camp, as DPW will remove rings and barrels that violate safety rules.
- ◊ Only burn materials that are non-toxic and burnable (your plastic, cigarette filters, and cans are NOT safe).
- ◊ Campfires and burn barrels must either be actively attended or completely out (cold to the touch) when unattended.
- ◊ You must clean out your campfire ring (ash, wood, and all) before leaving. Unburned firewood may be stacked neatly next to fire ring.
- ◊ NO fire is allowed in open camping except for small propane cook stoves. Keyhole theme camps may have elevated burn barrels, preferably near the road.

Leave No Trace

- ◊ Leave No Trace means that we must leave the site in better condition than we found it. Each participant must remove all items they brought with them – including their trash – when they leave the site.
- ◊ We also ask that each participant helps by picking up any litter / Matter Out Of Place (MOOP) that they encounter. Smokers, bring a portable ashtray.
- ◊ Please respect the greater community by not dumping your trash at the nearest rest stop. There will be a trash collection station at the end of Gate road during Exodus. You may pay \$5/bag to dump moop before leaving the property (no furniture). The proceeds, less the dumpster fee, will be donated to the local fire department. Please don't forget to drop off your returnables at Recycle Camp!

Health and Safety

Our proud volunteers in yellow are our Emergency Services Department. All of our Medical Team volunteers are trained and certified Healthcare providers, many with EMS and ER experience. They're on hand to triage and treat any medical problems or injuries.

- ◊ Intoxicants and water don't mix. Alcohol makes it far likelier that you will drown if you enter the water. Always take a friend and don't swim alone.
- ◊ Mental Health volunteers will be available as needed. A Sanctuary will be provided for those who need a quiet, calm space where you can speak to someone or take a breather.
- ◊ The ESD Tent will be clearly marked on the Lakes of Fire map. Seek help at ESD directly, or we can come to you. Please ask an on-duty ESD volunteer or Ranger if you need medical or mental health assistance.
- ◊ If you have a pre-existing medical condition that you feel may become a problem during the event, please make a campmate aware of it and inform the ESD Medical Team. If you have any questions, feel free to approach any on-duty ESD volunteer.

Emergencies Involving 911

ESD volunteers are also your portal to off-site medical care. While you have the right to contact 911 directly, please try and route the request through a Ranger or an ESD Team volunteer so that we can facilitate. If you need to be evacuated to a hospital, contact ESD Medical. We will provide info or help to get you to the local hospital or Urgent Care.

Rangers: Here to Help

- ◊ Lakes of Fire Rangers are first and foremost citizens of Lakes of Fire. They help to preserve the safety, welfare, and quality of experience of our community while supporting participants. They are burners and participants just like you – they are not "law enforcement." You can spot LoF Rangers by their all-khaki outfits with the Ranger logo and their Ranger hat!
- ◊ Pairs of Rangers can be found circulating the event 24/7, helping out as needed. They carry radios to ac-

cess additional resources such as Emergency Services (Fire & Medical) and are trained to mediate disputes.

- ◊ Rangers do prefer that you practice radical self-reliance first, and ask for help second – but participants are encouraged to ask for assistance when needed.

Parenting at Lakes

- ◊ Little burners under 18 years of age must be accompanied by a parent or legal guardian, both at entry, and at all times during the event.
- ◊ You are responsible for the welfare of minors in your care. It's your responsibility to determine how much of it your li'l burners are exposed to. Failing to adequately supervise minors in your care is your fastest ticket out of Lakes of Fire, as you will be immediately ejected without exception or recourse.
- ◊ Let your kids know in advance about the kind of things that they will or might see and hear. Nudity, iconoclastic art, sexuality, rude language, cultural commentary, and weird behavior are all a part of any Burn. Talk to them about common-sense safety – advise them to be cautious about getting too close to aggressive art, destructive robots, moving vehicles, and playing in ash heaps or burn scars.
- ◊ Babies cannot consent to the bangin' tunes at a sound camp – you may want to consider earplugs or noise blocking earmuffs if you're going to be hanging out by the fat stacks.

Fire Performance Safety

- ◊ Fire is a spectacular part of our event, when done safely and in a controlled manner. The Fire Art Safety Team (F.A.S.T.) requires that you contact us first regarding fire spinning performances, fire sculptures, flame effects and open fires.
- ◊ All physical fire art requires prior pre-event signup. All fire art requires inspection on-site. F.A.S.T. members don't bite – they limit risk and prevent friends from getting hurt.
- ◊ A fire safety training is hosted every year onsite. This training is geared towards fire performers (spinners and breathers), but all are welcome. Classes are on Thursday and Friday. Please check the WhatWhere-When for the locations and times. If you plan on participating in the Fire Conclave performance preceding the Burn (which you should!) you must attend an LoF specific fire safety training.

Exodus Sunday

- ◊ All participants except for select volunteers must be off the property by 3:00 P.M.
- ◊ Please make sure that you Leave No Trace and your campsite is in pristine condition.
- ◊ We know trash is not a fun traveling companion, but it is vitally important that everything you pack out ends up at your own home, NOT on the side of the road or in private dumpsters!

THE EFFIGY BEDDAZZLE

Once upon a time on a lake far away
a group of burners wanted to play

A burn they started with radical participation
Grew and grew with collective imagination
After a decade of amazing growth and activity
We now reach a crossroads of creativity.

Each year was different, never the same
Last year the Phoenix was born from the flame
A new beginning, a renewal of spirit.
The future burns bright, you don't have to fear it.

Bedtime Stories is a unique chance
for us to take a backward glance
at our history of effigies and burns so great
and look forward the future we all create.

The BEDdazzle is a space to be inspired
Connect with each other, then set on fire.

A huge group effort it was to build
and now that it's here our hearts are filled
for the home, our community loves so dear
let it be a beacon to welcome you here
Dreams to stir and senses to indulge
memories to share and secrets to divulge.

This magnificent effigy has treasures to share
Places to explore and you should be prepared
To chill and party and dance and have fun
We're off to a great start, the story has begun.

It's twenty eighteen, and we can do anything
Tuck yourself in this bed we dare you to dream
So now take a pen--write your name on this wall
Make your own story--Lakes is meant for us all!

SOUND AT LAKES OF FIRE

Amplified sound is an integral part of Lakes of Fire. Artistic expression through the medium of sound is highly encouraged and appreciated by the Lakes of Fire community and organization, provided it does not threaten the event as a whole. Unfortunately, the cumulative and far-reaching effects of sound can potentially endanger Lakes of Fire's continued presence at any particular location.

All participants bringing amplified sound are required to sign a Sound Agreement and display a Sound Permit prominently by their sound source.

The Sound Team will be monitoring and working with sound camps throughout the event, and infractions will be marked against the permit & logged for future use.

DAILY TURNDOWN TIMES:
WEDNESDAY NIGHT: 11PM
THURSDAY NIGHT: 11PM
FRIDAY NIGHT: 2AM
SATURDAY NIGHT: 2AM

90 DB @ 40 FEET / NO SUBS
SUBWOOFERS RESUME AT 10 AM

NOTE: These limits can change at any time, for any reason, as dictated by the Sound Team and/or the GLEA Board.

Enforcement Procedures AKA The Three Strikes Rule

STRIKE ONE:

A friendly chat to make sure that you know where your levels should be, as well as a reminder of the policy and how it will be enforced. Please, respect the limits that are put in place to protect the community and the event.

STRIKE TWO:

A stern warning, we know you are well aware of the policy, as well as where your levels should be and how to keep them there. You deliberately violated it, putting the event and community at risk. Please, for everyone's sake, do not let it happen again.

STRIKE THREE:

Regardless of intention, you and your sound system are a problem. The Rangers and Board will be informed that your system is to be powered off for the remainder of the night. Additionally, since you have proven to be incapable of self-managing your volume, subsequent Turn Down Times will be Turn Off Times for your camp/mutant vehicle/project. You have lost late night sound privileges for Lakes of Fire this year. Shame on you! Boo.

A third infraction on any given night will result in losing Late Night Sound privileges for the duration of the event!

ART HONORARIA

ANAHATA: THE TEMPLE THAT LOVE BUILT

By: Scarlett Stoppa / Awarded: \$420

Our vision is that this community-created project; the actual process of building, running, and disassembling the community space; and the art and interactive experiences within it will foster spirits of love, compassion, acceptance, forgiveness, and personal peace. We aspire to heal rifts and strengthen bonds in our communities through visual art, oral and photographic storytelling, therapeutic yoga, and numerous workshop and performance experiences.

ARCANE SPIRE

By Richard McGarry / Awarded: \$300

The artwork is an expression of metal, fire and lighting. It's meant to make you think and stare. There's no 'communication' other than wonder and warmth. The vibe the piece is meant to create is one of an extraterrestrial origin, a growth from another world. The interactive element brings one a sense of 'reactivity', evoking foreign lands and strange creatures.

BURNING GOTHIC

By Tim Krueger / Awarded: \$600

Flaming pitch fork on a stage so that participants can get their picture taken in a style similar to the American Gothic painting.

CAPTAIN NEMO'S FLAMING CARNIVAL

'Celeste' is an immersive photographic lightbox installation evoking emotions of wonder and awe, inspiring both literal and metaphysical journeys of the heart and mind. Participation in the installation creates a warm environment that celebrates diversity.

EVOLUTIONARY ILLUMINATION (EVI)

By John Larkin Pence / Awarded: \$110

This feedback was originally developed as a technical exploration. It quickly became apparent that anything from simple posturing and 'hand jive', to free form whole body kinesthetic expressions played into the art of this machine, and excited the hearts of those participating and observing. Spinners, hoop artists, the barely able and youngsters with a branch in hand all have a blast, and the occasional serious dancer working this space sends us all out into orbit.

FIRE OBELISK GARDEN AND FIRE TORNADO

By Jesse Fox / Awarded: \$360

This art piece brings people together in the spirit of warmth and light. It is a gathering space late into the night for the community. The Egyptian gods featured on the obelisks were historically invoked to bless festivals and ceremonies. The environment these art pieces create invokes a sense of the mystical while bringing protection and peace for all who gather nearby.

FLAMING PHOTOBOTH

By James Villalpando / Awarded: \$300

This piece captures the best art at the event, the people! It was inspired by the look of joy seen on people's faces when they activate a flame effect. I always thought it would be a good time to have a camera, so I put this together!

IN BLOOM

By Britta Simpson / Awarded: \$400

In this piece, I wanted to create something that appears interesting both when inflated and not, as well as contain a component of interactivity. Interactive art draws people in and causes them to investigate which I feel incorporates the principles of "Participation" and "Immediacy". If not for the interaction of "participants" the art simply hangs, a lifeless bud. Soon after one leaves it is back to the dormant state (immediacy=be here now).

JURASSIC MUSHROOM FOREST

By Travis Faber / Awarded: \$1000

Our art piece is a castle like what children dream about. As adults it is fun to play on and around. We wish to communicate a sense of childlike joy and adventure to the participants, but way better because we are adults.

MUSICAL FIRE LOUNGE

By Samantha Herlihy / Awarded: \$1500

Our purpose of this project is to provide a lounge space that is relaxing and inspiring to all participants that encounter it. We are the Musical Fire Lounge. We offer a chill lounge atmosphere with framed paintings on the walls from the region of our theme for participants to relax and mingle with themed ambiance we select with music to soothe the soul. All of which is centered on a Ruben's Tube which is triggered with chill music and live musicians and vocalists who also have the opportunity to experience their produced soundwaves, visually, through fire.

PROPANE SIDESHOW

By John Svorec / Awarded: \$190

This piece highlights the craft of the flame effect builder. What it'd like to communicate is that we can safely build propane flame effects, and have them interactive where you, the participant can control the rhythm, duration, and intensity of these flames. Drum along on the controls... hit them at the bass drop, and even perform in front of them for a great photo op if you desire.

REFLECTIONS

By Katherine Hagman / Awarded: \$160

This work is a playful experiment of light and reflection. Viewers are invited to play with this installation. Their image and movements reflected on 40 different mirrors; each angle is slightly different, curved in different directions depending on where you are in relation to the installation.

SYNFIRE

By Matt Kreuzwieser / Awarded: \$1000

Syncytium is an experiment in space. We try to create a different world than most people experience in their day-to-day lives. Everything, not just the fire, comes together to create this strange world. Also, hippies get cold at night, so we do this for them.

TREE OF ZA

By Matthew McFarland / Awarded: \$300

The Tree of ZA: was produced as an art grant for Mosaic 2017. It created a centralized flame effect that we attached a pizza oven to. During the mosaic event, The Consortium produced over 100 artisan pizzas in three days. Each night at dusk we fired up the effect and start cooking pizzas. For Lakes 2018 we are looking to increase the output to around 200 pizzas over 4 days.

TRIPBOX2 NEXUS BOOGALOO

By Potter / Awarded: \$500

Original graphic design psychedelic artwork in a shadow box with RGB LED's that color change, strobe or can be set to solid color. To me this piece means growth, adventure & imagination. What I wish to communicate is to never stop dreaming, creating, building, loving art

WILD AESTHETIC

By Sean Hages / Awarded: \$240

Wild Aesthetic is both pragmatic, and an experiment to me. This project is all about radical self reliance, I can set it up and take transport it and take it down all by myself with relative ease. So for me its a practical way to exhibit large scale art without the aid of others. It's also an experiment, my motto with this project has always been "Shut up and sew." Which to me means; don't let fear or second guessing stop the process of making. I jumped into this medium and process and just went for it. I wish to communicate to others that this is a viable, approachable and cost efficient way to make and exhibit large scale sculptures.

WOROTOMO CAFE

The Worotomo Cafe is an antique espresso machine that features a retro-futuristic, whimsical design to keep people guessing about the technology inside. Northern Tails bring to life fairytales of beasts, bears and princesses that we read about as children. Between Thursday and Saturday morning, the Three Polar Bears will prepare porridge that is "too hot" "too cold" and "just right" from their little igloo, for a lucky Goldilocks to find. During the day, adventurers seeking only to marry a true prince or princess may visit the Royal Quarters. On Thursday evening Northern Tails will be throwing a Beauty and the Beast Ball. The Lake's guests are invited to don their finest gowns and most beastly masks to waltz, twirl and tangle under twinkling lights. On Friday evening all will be welcomed to our 'Where the Wild Things Are: Pajama Party'.

There's a few trucks, a whole bunch of flame effects, occasionally a DJ, sometimes healing and mediocre drinks served in large quantity. We make some art too, sometimes. We fill out forms and and stuff. We burn a lot of propane. We've even gone so far as to make a bench that tips over a lot. No one's been badly injured... yet. We try.

The Phase is a dive bar that has had over 27 separate varieties of deviled eggs on it's menu over the years. In fact, it is known as the place that invented the concept... it's a long story involving Peaches, a golden fiddle, Satan, and very unimaginative use of "your one wish"... The Phase is also the owner of over 142 cheeseburger related patents through the US Patent Office, and once held the Guinness World Record for "Most continuous use of the same bottle of Heinz 57" for so long that they discontinued the title. There is not a jukebox, but if there was was, it'd be full of punk, metal, and goth rock.

(8:00am to 10:00am)	Crimson Breakfast with Beanbake	Good Morning, I hope that you had a good burn. Here are 2 hours of my favorite King Crimson tracks!
(10:00am to 11:00am)	Kelly Bells Plays Donna's 45s	Donna gifted Doug her box of 45s from childhood and I got hold of the song list! Let's enjoy some blasts from the past while preparing our exodus from Lucky Lake. I guarantee you haven't heard these hits in decades...
(11:00am to 12:00pm)	Kelly Bells Canadian Favorites	In a musical salute to our neighbors to the North, Kelly Bells will spin an hour's worth of songs from Canadian artists. Some will be good, some will be bad, all will be Canadian!
(12:00pm to 3:00pm)	ScottFree Sign Off	It's so hard to say goodbye. Scott Free will make it easier with 3 hours of songs that say it in no uncertain terms.

WEE EFFIGIES

SAY GOODNIGHT

Come visit the magic cauldron and say goodnight to all the people, concepts, feels, ideas and such you wish to be rid of. Write it upon one of our spell ingredients or on the weefigy itself. We will cast a group enchantment on Friday night.

XX'S EFFIGY

We have moved on and are burning our un-significant XX's!

MINIKRING

The Minikring is a look into what the Afrikaburn playa has been like and what it has become over the last eleven years. It is an opportunity for members of other communities - even Afrikaburn's very own - to reflect on something that has already been reflected upon, but on a more relatable and conceivable scale - a birds eye view of another realm.

The What Where When is a labor of love created with hard work throughout the year by our Lakes of Fire Team Leads, Board of Directors, and the Info_bot communications team (BK, Skennedy, Sean Corbett, Ross Smith - who knew he couldn't attend and put in dozens of hours anyway, and Stacey Roberts for her art work!).

Lakes of Fire would not exist without you contributing your camps, your events, and your art. Thank you for participating in creating this great community. Don't forget, every Team Lead is just a participant who stepped up! We'd love to have your energy on our team.
